The seventh generation
Honda Civic was introduced
in Malaysia in February
2001 where it was only
available with the sedan
bodystyle powered by a 1.7

litre engine with two variants: EX-i and VTi. In November 2001, a third variant known as VTi (SRS) was introduced. This variant came with dual front airbags, unavailable in the EX-i and VTi variants.

I have a 2000 Honda Civic,

1.6L I think is the engine size. There is no spark coming to the wires. I've changed the Ignition Control Module, the Ignition Coil, cleaned of the contacts on the distributor cap and rotor button, and no avail.

20/7/2020 · Engine sizes:

The fifth generation Honda Civic debuted in Japan on September 9, 1991. At its introduction, it won the Car of the Year Japan award for the second time. Fifth generation cars were larger

than their predecessors, had more aerodynamic bodies, and the wheelbase was increased to 257 cm (101.3 inches)—for the three-door hatchback—and to 262 cm (103.2 inches)—for the four-door sedan.
