Your Chiropractor is an Expert in More Than Just Spines It surprises a

lot of people that their chiropractor can treat more conditions than just back pain. They also happen to know quite a bit about chronic illnesses, lifestyle choices, ergonomics, and they can also screen for conditions beyond the musculoskeletal system if they have the equipment.

3/12/2014 · Chiropractors treating lower-back pain may do neck manipulation, but it's completely all right to ask yours to avoid your neck. If you've got any numbness or tingling, or if you have cancer , you ...

18/10/2013 · If your answer to any of these questions is yes, there are certain things you should know. 1. Chiropractic theory and practice are not based on the body of knowledge related to health, disease, and health care that has been widely accepted by the scientific community.

The first thing you have to do is to create a marketing plan for your chiropractic office. A well-prepared marketing plan helps you identify your target audience and what you should do to reach them.

**CHIROPRACTIC MARKETING TIPS #2**

Chiropractic is a research-driven profession specialised in scientific methods for correcting interference in the nervous system—particularly which may be due to misalignments at the spine and upper neck, affecting the central nervous system and brain stem. What’s the most common misconception about chiropractic treatments?

The “Prerequisites” for Hiring an Associate Chiropractor. When it comes to hiring an associate timing is everything, says Dr. Noel Lloyd, founder of Five Star Management. Hiring someone before your practice is ready can cause unwanted disruptions and potentially a significant

loss in net income.

I think it was Dr. Seuss who said, “Those that matter don’t mind, and those that mind don’t matter” Just a thought, allow others to matter and they might leave you alone to be who and what you think you are or want to be! Perhaps then you might matter to yourself. Wow, think of a world where others matter and you mattered to others.

25/8/2017 · A University of California, San Francisco, study of stroke victims published in 2003 found that chiropractic manipulation of the

neck significantly increased the risk of stroke by causing the lining of a neck artery to break off and block blood flow to the brain.

3/12/2014 · Research suggests that chiropractic treatment may be helpful for muscle-related or unexplained lower-back pain (but not for chronic issues such as arthritis).

Your Chiropractor is an Expert in More Than Just Spines It surprises a lot of people that their chiropractor can treat more conditions than just back pain. They also happen to know quite a bit about chronic illnesses,

lifestyle choices, ergonomics, and they can also screen for conditions beyond the musculoskeletal system if they have the equipment.
