19/3/2019 · Components permit two types of dragging: automatic and manual. Delphi uses the DragMode property to control when the user is able to drag the control. The default value this property is dmManual, which means that dragging components around the application is not allowed, except under special circumstances, for which we have to write the appropriate code.

manual or the help file and to keep it accurate and current we have not duplicated it. This document is designed to be a manual, not a reference guide. The IntaWeb Component Reference help file should be consulted when a reference for properties, events, methods and components is ...

functional version of the Delphi 5.0, Delphi 6.0, Delphi 7.0, or C++ Builder 5.0 or 6.0 development environment, contain about 15 MB of free hard disk space.
