Also typical of Harley  
Davidson, both the Road

King and Electra Glide have high demand from riders and passengers. In fact, the love and demand for the standard Road King and Electra Glide models is amazing. The two bikes use similar Milwaukee-Eight engine, although with variations. That is why you

can sure of high  
performance from their end.

Road King® , Street Glide® ,  
Ultra Limited® , Electra  
Glide® and other Harley-  
Davidson® Touring models  
were designed for covering  
hundreds of miles every  
day. Read more about

motorcycle camping and long road trips in this article.

26/4/2010 · What are the differences between the Road King, Road Glide, Street Glide and Electra glide? Except for a few cosmetic add-ons such as fairings and different

fenders, I truly cannot determine the differences between the models. Please don't just give me a link to the HD web site - I would appreciate some discussion about the differences.

1/10/2017 · 2017 Electra Glide Ultra Classic. Does anyone have any idea how

hard it would be to convert it to a Road King? Ideally, this would turn into some type of "kit" so the conversion can go from glide to king and king to glide on demand. Asking for a friend. JamesNT

12/2/2008 · Supply and demand basically. Just consumerism. I've bought new: a Road King (2000), an Electra Glide Classic

(2003), plus a Road Glide (2005). I can't imagine that the production costs account for much of a price difference. Electra Glide Classic is probably the best bang for the buck, Road Glide (IMHO) best all around Harley dresser.
