

Gns 530w Guide

[PDF] [EPUB] Gns 530w
Guide Free download

The GNS 530W includes all the features of the GPS 500W and also includes an airborne VHF communications transceiver and airborne VOR/localizer (LOC) and glideslope (G/S) receivers. The “AW” model is a 28 VDC unit with a 16 Watt COM transmitter. The GNS 530W/(AW) meets the requirements of TSOs specified in Table 1-4.

(GNS 530W) is used to toggle the navigation source (GPS or VLOC) that provides output to

an external HSI or CDI. O The omni-bearing selector (OBS) key is used for two functions: to activate OBS selection and as a suspend key. As a Suspend key, it is used to select manual or automatic sequencing of waypoints. Pressing this key selects SUSP mode, which

This guide covers the operation of the GNS 530W, GNS 530AW, and the GPS 500W. In general, all models will be referred to as the 500W-series, except where there are physical or operational differences. The 500W-series units are 6.25" wide and 4.60" high. The display is a 320 by 234 pixel color LCD.

This guide covers the operation of the GNS 530W, GNS 530AW, and the GPS 500W. In general, all models will be referred to as the 500W-series, except where there are physical

or operational differences. The 500W-series units are 6.25" wide and 4.60" high. The display is a 320 by 234 pixel color LCD.

NOTE: Unless otherwise specified within this manual, the term "500W-series" applies to the GPS 500W, GNS 530W, and GNS 530AW models. Please, note that the difference between the GNS 530W and GNS 530AW is indicated under "VHF COM Performance" in the Specifications section of this manual ...

GNS 530W is easy to interface with a wide array of optional sensors and tracking systems, allowing you to see and avoid hazards such as

threatening weather, lightning or air traffic. With a GDL 88 Datalink, the GNS 530W can display ADS-B traffic targets using TIS-A symbology, as well as subscription-free FIS-B weather information -- including graphical NEXRAD radar, METARs, TAFs and more.

of unsafe operation, carefully review and understand all aspects of the GNS 530 Pilot's Guide documentation and the GNS 530 Flight Manual Supplement. Thoroughly practice basic operation prior to actual use. During flight operations, carefully compare indications from the GNS 530 to all available navigation sources, including

The GNS 530W and GNS 430W V2 can control the simulator COM and NAV radios. To accommodate a wider variety of aircraft panels, the GNS 530W license unlocks the

GPS 500W. Similar in form and function to the 530W, the radio-less sibling ?ts panels already equipped with radios. It also ?ts in any panel equipped with the default FS GPS.

An OBS resolver connection to the GPS is preferred, but not required. For the GNS 530W, an OBS resolver typically is connected to the MAIN OBS inputs for use with the GNS 530W VOR receiver. Page 4-8 500W Series Installation Manual Rev. B 190-00357-02.

pilot workload. Simply put, the GNS 530 incorporates advanced procedure types usually found only in high-end FMS systems. The GNS 530's intuitive software and logical layout prove that this is a system built for pilots, by pilots. So much information. So easy
