28/3/2009 · I recently purchased a 1972 kz900 that I want to restore to factory specs. Does

anyone know a link where I can download a service or repair manual. I downloaded one for my vtx1800 and it is very helpful. I just do not want to buy one unless I have to. Thx to all

who respond.

Each Kawasaki product line has a distinct VIN location. The exact location for these numbers

in your particular model is illustrated in your owner's manual near the front of the book. They also appear on your registration

documents.

The KZ900 specs will be very much like the KZ1000-A-1, other than the displacement and

the KZ900A has a rear drum brake. The KZ1000J's specifications are similar to those of the KZ1000C. The KZ1000-K1 and KZ1000-M1 are similar to the J except for a

few things such as rear tire size (16 inch) on the K1 and M1 and rear sprocket size, which is 39 teeth on the K1 and M1.
