It details the consequences of exposure to lighting or lighting technology and the role of exposure to light on such basic functions of the body as circadian rhythms. The author combines information from many different sources and integrates them into a coherent overview of lighting practice that can be used to develop better lighting solutions at

a lower environmental cost.

I came to know about 'Light from many Lamps' when I was reading
'The Wings of Fire', an autobiography of former President of India, Dr.
APJ Abdul Kalam. In his autobiography the Missile man praised this
book, and also admitted that it was this book into which he use to seek
solace in difficult times, and it has helped him to gain wisdom, and

overcome the problems he faced, beyond any measure.
