Mazda Motor Corporation is not responsible for any problems which may arise from the use of this manual. The cause of such problems includes but is not limited to insufficient service-related training, use of improper tools, use of replacement parts of lesser quality than that of genuine Mazda replacement parts, or not being aware of any revision of this manual.

Most of the world 's top engine and car manufacturers, including Mazda, employ Garrett turbochargers to boost their engines, and with 27,000 turbos produced every day, Garrett is a name to trust. The T25R ball bearing turbocharger featured on the Mazda Protegé uses some of the same technologies as seen in the Garrett Motorsports product line.

Mazda never published a service manual for the FP engine in North America. However, since this engine is essentially a destroyed version of the FS engine, you can use the FS engine service manual (part number 9999-95-193D-98).

The Mazda speed manual recommends you idle for 30 seconds. A Turbo Timer will keep your engine running for the proper time after you remove the key from the ignition. There is a theft protection feature built in to most turbo timers, so you don't have to worry about getting your ride stolen.
