This is a special application to calculate

projection distance and projection size for Mitsubishi Electric projectors. Simply choose the desired model, lens and unit, then enter a value in a box to calculate the following:

distance between projector and screen,
required screen dimensions, and the
appropriate distance of the screen from the

floor or ceiling.

Limitation of Liability. Mitsubishi will not be liable to you for any special, indirect, or

consequential damages (including, without limitation any loss of revenue, profits, or data) arising in connection with this application, even if we have been advised of the possibility

of such damages.
