The Early Years Foundation Stage must be underpinned by principles supporting every area of a child's development. They are all of equal importance and need to be in place when caring for children. They work together providing a stimulating and valuable practice, delivery of the EYFS and putting the legal requirements in to perspective.

5/6/2019 · A strategic plan should not be solely an incremental list of current activities, but have at least a 20% 'ah ha' factor of new ideas. Otherwise, a linear, incremental plan will do little more than maintain the status quo, like treading water. With this premise, the pre-strategic planning stages need to include creative and innovative thinking.

These well-tried activities support the teaching of mathematics in the Foundation Stage. They are not meant to be exhaustive; there will be other opportunities for mathematical learning which children plan or initiate themselves. On the bottom of each page, there is space to note modifications for future reference or other ideas for activities.

21/8/2020 · Learning about ourselves is a fundamental part of childhood development, especially as pupils start to ask questions about who they are and how they are the same, or different, from others. As such, the start of the academic year - when everybody is getting to know one another – is the ideal time to start an “all about me” topic.
