Birds of prey, also known as raptors, include species of bird that primarily hunt and feed on vertebrates that are large relative to the hunter. Additionally, they have keen eyesight for detecting food at a distance or during flight, strong feet equipped with talons for grasping or killing prey, and powerful, curved beaks for tearing flesh. The term raptor is derived from the Latin word rapio, meaning to seize or take by force. In addition to hunting live prey, many birds...

31/8/2016 · Raptor: a Journey Through Birds by James Macdonald Lockhart 33d4f970-ef3f-4ce9-bebf-0ec20dede874 This book deals with 15 species of birds of prey, each in an essay based largely on personal observation, years of familiarity, and visits to likely places to search for the birds.

22/4/2017 · With Raptor, James Macdonald Lockhart has done just that in his publishing debut—and it is completely different. On the steps of his hero, nineteenth-century Scottish naturalist and artist William

MacGillivray, Lockhart treks through the fens, moors, and dark woods of Britain in search of fifteen species of raptor.

RAPTOR: A JOURNEY THROUGH BIRDS is a story of how raptors and the landscapes they live in have possessed the author. This book takes a bird of prey and, chapter by chapter, looks at the biology and history of the bird as well as their relationship to man, allowing Macdonald to also look at the history, ecology and geology of the land.

13/2/2016 · A journey in search of raptors, a journey through the birds and into their worlds. That is how I envisaged it. Beginning in the far north, in Orkney, and winding my way down to a river in Devon. A long journey south, clambering down this tall, spiny island, which is as vast and wondrous to me as any galaxy.

5/9/2017 · In *Raptor: A Journey Through Birds*, James MacDonald Lockhart loosely follows William MacGillivray, the nineteenth century ornithologist, from Scotland south, searching for the fifteen species of British raptors. You may recall MacGillivray from the Audubon connection: he was John James's ornithological ghost writer. I was struck by this: MacGillivray called his knapsack a "machine."
