9/4/2009 · Consequently, it is not surprising that in many tropical countries where there is fierce competition for scarce resources, rheumatology remains very much a

‘Cinderella’ discipline. And yet our specialty is relatively ‘low tech’ in which clinical skills and experience remain paramount.

Rheumatology (Greek ??????, rheûma, flowing current) is a branch of medicine devoted to the

diagnosis and therapy of rheumatic diseases.  
Physicians who have undergone formal  
training in rheumatology are called  
rheumatologists. Rheumatologists deal mainly

with immune-mediated disorders of the musculoskeletal system, soft tissues, autoimmune diseases, vasculitides, and

inherited connective ...

Psoriatic arthritis (PsA) has been defined as a unique inflammatory arthritis associated with

psoriasis. Its exact prevalence is unknown, but estimates vary from 0.3% to 1% of the population. The clinical features described initially are recognised by most experienced

clinicians, although they are most distinct in early disease. Initially, PsA typically presents as an oligoarticular and mild ...

10/10/2019 · Rheumatic fever most often

affects children who are between 5 and 15 years old, though it can develop in younger children and adults. Although strep throat is common, rheumatic fever is rare in the United

States and other developed countries.

However, rheumatic fever remains common in many developing nations.

14/7/2015 · ##### The bottom line Acute rheumatic fever is an inflammatory response to group A streptococcal infection which typically occurs two to three weeks after a

throat infection. Worldwide, approximately 500 000 new cases of acute rheumatic fever occur annually, and at least 15 million people have chronic rheumatic heart disease.<sup>1 2</sup>

Acute rheumatic fever is characterised by a clinical ...

Background/Purpose: Clinician-reported

registry data suggest that use of biologics in people with immune-mediated inflammatory diseases (IMIDs) is associated with a lower risk of adverse COVID-19 outcomes

compared with no treatment. However, the role of potentially confounding risk-mitigating behaviors is unclear. Given the variation in public health messaging between countries, it

is possible ...

10/7/2020 · Following reports of paediatric  
inflammatory multisystem syndrome

temporally associated with severe acute respiratory syndrome coronavirus 2 (SARS-CoV-2) infection (PIMS-TS),<sup>1,2</sup> a UK-born man of Somali origin, aged 21 years, was

admitted to University College London  
Hospitals (UK) with 6 days of fever and  
abdominal pain associated with constipation,

anorexia, and headache.

14/4/2020 · INTRODUCTION. There are complex bidirectional relationships between

rheumatic diseases and cancer. Certain rheumatic disorders, including dermatomyositis, polymyositis, rheumatoid arthritis (RA), systemic lupus erythematosus,

Sjögren's syndrome, and systemic sclerosis, are associated with an increased risk of malignancy and in some instances may be the

result of cancer-induced autoimmunity [1].

Join us LIVE and On-Demand for the virtual  
CRA & AHPA Annual Scientific Meeting

from February 24-26, 2021. The meeting is presented by the Canadian Rheumatology Association and Arthritis Health Professions Association. This year's Annual Scientific

Meeting will showcase the strengths of our extended rheumatology community, fittingly captured by our theme: Collaboration,

Resilience and ...
