21/12/2011 · "Michael Porter didn't get to be a giant in the field of competition and strategy by hunting small game." Joan Magretta begins her new book on Harvard Business School's Michael Porter's work by noting that, from the start of his career, Porter has been asking a big question when it comes to understanding everything from the free enterprise system to the individual motivations of managers.

Magretta uses her wide business experience to translate Porter's powerful insights into practice and to correct the most common misconceptions about them—for instance, that competition is about being unique, not being the best; that it is a contest over profits, not a battle between rivals; that strategy is about choosing

to make some customers unhappy, not being all things to all customers.
