Germany's Nordex is one of the pioneers in wind turbine technology. It produced the first megawatt-size turbine, in 1995, with the N54 1MW model. Nordex, based in Hamburg, Germany, has more than 25GW of turbines installed in 40 worldwide markets. This was boosted with the acquisition of Acciona Wind Power from Spanish group Acciona Energia in 2016.

The Wind Power is a comprehensive database of detailed raw statistics on the rapidly growing sphere of wind energy and its supporting markets. The Wind Power tabulates data from a variety of players in the worldwide industry — wind farm developers, operators and owners, turbine manufacturers, to name only a few — into useable figures available in Excel, Csv, Tsv, Shape, Kmz and Kml formats.

We also recognize the need to ensure business continuity and serve the needs of our customers and society in this fast-changing and complicated environment. We have therefore taken action to maintain high levels of activity across the business – manufacturing, installing and servicing wind turbines – without compromising health and safety.
